**DEPARTMENT OF BOTANY**

**AWARENESS PROGRAM ON RAIN WATER HARVESTING, 2018-19**

**REPORT:** - As a best practice, the staff and students of Botany Department on 7<sup>th</sup> March, 2019 conducted an awareness program on harvesting rain water. Since our locality tends to face lot of water shortage issues, an alternate solution was to be made for saving water.

The program's motto was to create awareness about scarcity of water and need for water conservation and also on rain water harvesting among the public and to students of different departments.

The students of our department designed a rain-water harvest model and the public of surrounding areas of our college were explained about the benefits of rain-water harvest system in every house and buildings. Using the model, students and the staff of our department shared their valuable information on conserving rain-water and its benefits in saving the environment all together.
